

Laurel LAC-16

The right choice for your Coin Wrapping Machine.

FEATURES

Graphic LCD Display

The user-friendly panel gives an easy-to-see and foolproof, clear visual operational guidance. All counting and wrapping procedures are illustrated and instructed to the operator on the display.

Highly Reliable Performance

The Machine's super heavy-duty robust construction and high speed mechanism always assure steady and efficient coin counting and wrapping productivity. Its unique 'Maintenance Mode' will help greatly reduce the delicate and time-consuming mechanical and electrical adjustment.

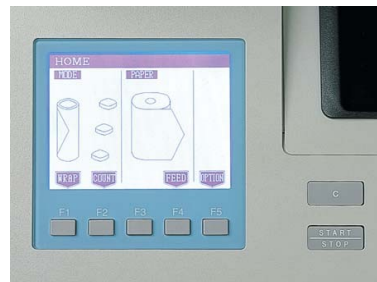

Automatic Jam Recovery & Rejection

With the LAC-16 Series a coin jam and error recovery is easy. Its unique mechanism clears the jam speedily and automatically and the Machine continues the job without interruption. On top of that, foreign coin, smaller/larger diameter coin, odd coin and irregular coin stack are automatically rejected into the Clear Box/Sort Box with the number of coin rejected automatically deducted and shown on the count display.

Multi coin Processing Capabilities

The universal cams and memory card make it real quick and simple to change coin wrapping specifications. When a new coin or token starts circulating in the market, all you have to do is just install a new memory card from Laurel in which the necessary data of the new coin or token are registered and let the LAC-16 Series do the rest of the job.

LCD Screen
