

Laurel LPC-2S

Laurel has developed the most excellent and sophisticated Machine.

"LAUREL" is the right choice for your Coin Wrapping Machine.

FEATURES

Simple to Operate

The revolutionary coin stacking mechanism frees the operator from the nuisance of replacing a coin tube when wrapping a different denomination coin. Just reset the denomination dial and wrapping paper.

Useful Keypad & Display

The large LED display and the handy keypad are located in one place enhancing the operational ease. In case any abnormality develops, an alarm light goes on showing the cause of the problem in code on the display.

Batching Flexibility

Bagging coins up to 9999 at one shot is possible through the ten keys. Batching coin rolls at a preset number is also available. Switching to the bagging mode is very simple and the built-in bagging chute sets in position automatically as soon as the lever is shifted to the bagging mode.

High Productivity And Reliability

The Model LPC-2S is capable of producing up to 20 rolls per minute with reliable and stable performance and consequently assures you of higher throughput.

Operation Panel

SPECIFICATION
