

destroyit® Model 5009

With a capacity of up to 700 sheets, the 5009 excels in high-volume shredding environments such as hospitals, banks, and government facilities.

Destroyit 5009 Features

- Cross-cut cutting head takes credit cards, CD's, VHS tapes, 3-ring binders and hardbound files.
- Two shred modes: "Power" for bulk feeding of large quantities of paper, "Speed" for high-speed shredding of smaller amounts.
- Fully enclosed shred cart on casters for easy removal of the full shred bag.
- Automatic reverse and re-feeding in case of paper jam.
- Automatic stop when shred bag is full.
- Built-in oiler.
- Front safety guard.
- Electronically secured door.
- Motor rated for continuous duty.
- Mobile on casters.
- Recommended supplies and accessories: 0924 shred bags, shred oil, additional shred collection cart, conveyor system.
